2.3. Reservations and arrangements for food services must be made at least **one week** in advance of the event being organized.

The calculation of the food expenses is done jointly by the Client and Cafeteria Manager by completion of the "**Special Events Food Service Form**", which includes dish names, required quantities and prices. These forms must be filled out and signed by both parties for every day of food services. These forms are not subject to change.

Client must also pay a service charge calculated to be a certain percentage of total price of the requested food, or people served. If additional food is requested, (above the initially agreed upon amount), the Client is responsible for informing the Cafeteria Manager **in written form** before the service is rendered. If possible, Cafeteria will try to provide additional food, however, it is understood that Cafeteria is under no obligation to satisfy the request. Expenses for extra food must be paid separately.

### 3. Payment

Total charge for services is calculated as the servicing fee for facilities and equipment plus the total cost of food.

The servicing fee will be determined in accordance to the Venues Servicing Fee **Sheet**, which is computed separately for physical facilities and equipment.

Total cost of food is calculated as the sum of food costs mentioned in the Daily Food Forms.
